Re: Dupee Street 40B- Wall Street Development Corp. ZBA #05-20 Comments

The following comments are provided by the Walpole Police Department in regards to the Dupee St 40B Project.

1. When Dupee St is reconstructed as detailed in the plans, the construction of sidewalks would be necessary in the event children would be walking down High Plain St to a bus stop or when walking to school.
2. With there being more traffic on Dupee St once the project is completed, be essential to have a crosswalk located at the end of the street so that people would be able to walk along the sidewalk on High Plain St and safely navigate across Dupee St.
3. The plans do indicate that street lights would be installed along Dupee St, so we would just like to ensure that lighting is adequate so as to provide security to residents at night but also to maintain a safe area for pedestrian traffic at night.

Respectfully Submitted,

Richard M. Kelleher
Deputy Chief of Police
Walpole Police Department
